Priority Need: Infrastructure

Project Title: Road Resurfacing Program (revised)

Description: The Township will undertake a road renovation/resurfacing program to bring current substandard road conditions up to acceptable engineering standards. The township's intention is to improve the infrastructure in CDBG eligible areas in order to stabilize property values and prevent blight.

The project specifically seeks to promote the maintenance and improvement of existing infrastructure to avoid conditions that contribute to private sector disinvestment and subsequently neighborhood decline.

The anticipated outcome is the creation of a sustainable and vibrant residential community whereby low and moderate income families can enjoy and utilize a road network that is up to current engineering standards and is maintained in a manner that is consistent with other areas of the Township. This helps to solidify the community and eliminate disparity in infrastructure conditions that would otherwise tend to segregate neighborhoods into economic classes.
