Bulk Variance

Dear Mr. Chairman and Commissioners:

This application is requesting commercial vehicles be allowed to park on the residential property.

The Engineering Division makes no opinion on the use aspects of the application; however, the site plan/survey submitted with the application does not reflect the field conditions.

The prior owner expanded the concrete driveway apron and asphalt driveway in or around 2017. The existing driveway is approximately 20 feet wide. The eastern half of the driveway extends past the garage opening to the rear wall of the garage.

Sincerely:

Heather Vitz-Del Rio, P.E.
Director of Public Works
